INTRODUCTORY NOTE.

The committee on publications has made an effort to secure all data concerning graduates directly from the graduates themselves. By means of reply-postal cards, circulars and personal letters, almost all on the alumni list have been reached. In the case of those from whom no response could be obtained, information has been gained from what seemed reliable sources. In issuing a register of this sort, especially for the first time, it is inevitable that some errors should occur. If these are reported to the secretary of the faculty by those interested, together with changes of address and other items of interest, the value of succeeding registers will be increased.
